Professional Summary

With over a decade of nursing experience in diverse hospital settings across Singapore and Malaysia, I recently completed a rigorous 9-week web development boot camp with Le Wagon, equipping me with comprehensive technical skills. Proficient in HTML, CSS, JavaScript, and frameworks like Stimulus, I bring a unique blend of empathy and technical excellence. I am actively working on personal projects to revolutionize user experiences and seeking full-time opportunities in the **tech industry** where I can contribute my interdisciplinary expertise and passion for creating impactful online solutions.
